

HEXAGONAL PLASTIC LEAD SEAL LOCK

TSQF01

Product Features

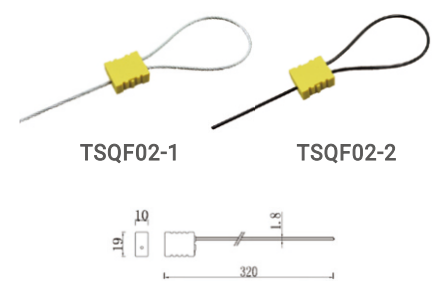

- Coated with new ABS eco-friendly plastic,core of lock body is zinc alloy.
- Lock cable material is aviation steel cable, Dia. is 1.8mm.
- The maximum tension can up to 200KG.
- Can customize colors,any text graphics,laser printing, heat transfer printing.

Product Selection

Code	Description
TSQF01	Standard steel cable length is 300mm, can be customized.

SQUARE PLASTIC LEAD SEAL LOCK

TSQF02 SERIES

Product Features

- Coated with new ABS eco-friendly plastic,core of lock body is zinc alloy.
- Aviation steel cable Dia. is 1.8mm,black plastic coated steel cable Dia. is 2.0mm.
- The maximum tension can up to 200KG.
- Can customize colors,any text graphics,laser printing, heat transfer printing.

TSQF02-1	Standard steel cable length is 320mm, can be customized.
TSQF02-2	

ALUMINUM ALLOY STEEL LEAD SEAL LOCK

TSQF03/04 SERIES

Product Features

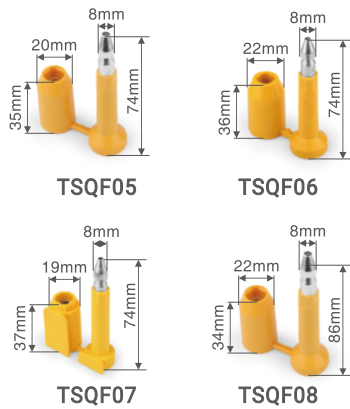

- Lock body is made of high quality aluminum alloy.
- Lock cable material is high quality aviation steel cable.
- Lock body color can be customized.

Product Selection

Code	Description
TSQF03-1	Steel cable: dia. 1.5mm × length 300mm; Max tension: 300kg
TSQF03-2	Steel cable: dia. 2.0mm × length 300mm; Max tension: 450kg
TSQF03-3	Steel cable: dia. 2.5mm × length 300mm; Max tension: 500kg
TSQF03-4	Steel cable: dia. 4.0mm × length 300mm; Max tension: 1000kg
TSQF03-5	Steel cable: dia. 5.0mm × length 300mm; Max tension: 1200kg
TSQF04-1	Steel cable: dia. 1.5mm × length 300mm; Max tension: 300kg
TSQF04-2	Steel cable: dia. 1.8mm × length 300mm; Max tension: 450kg
TSQF04-3	Steel cable: dia. 2.5mm × length 300mm; Max tension: 500kg
TSQF04-4	Steel cable: dia. 4.0mm × length 300mm; Max tension: 1000kg
TSQF04-5	Steel cable: dia. 5.0mm × length 300mm; Max tension: 1200kg

HIGH SECURITY BULLET LEAD SEAL LOCK

TSQF05-08

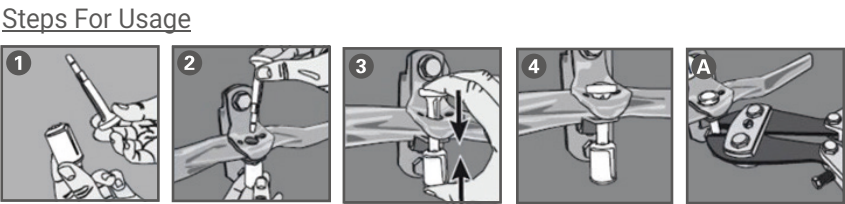

Product Features

- Lock shell material is new ABS eco-friendly plastic.
- Lock rod and barrel are made of Q235 steel, maximum tension can up to 1T.
